

Standard

CAL EXT **Adjusting program (CAL):** For quick setting of the balance's accuracy. External adjusting weight required.

PCS **Piece counting:** Reference quantities selectable. Display can be switched from piece to weight.

AU **Rechargeable battery pack:** rechargeable set.

230 **Power supply:** integrated in balance. 230V/50Hz in Germany. On request GB, AUS or USA version.

KERN CXB

Counting scale

Entry level model in professional counting
Counting resolution of 30,000 Pt

AU **Rechargeable battery pack**
internal, standard. operating time approx. 200 h, charging time approx. 8 h, charge condition indicator on display

Large backlit LCD displays
digit height 18 mm

Energy management
Backlight turns off after 5 sec, can be switched off

Protective working cover
over keyboard and housing, standard. Can be reordered, KERN CXB-A01

M+
Counting results memory
adds up all individual counting operations, result is shown as total weight and total pieces

Acoustic Fill-to-target
Target count or target weight can be programmed. When the target value is reached a signal sounds

Soil-resistant construction
with water channels at the edge of the housing and sealing rings over the upper housing inlets

Precise counting
the automatic optimization of the reference weight improves the average value of the piece weight in levels

Input via numerical key pad:

- Known reference weight
- Required reference quantity
- **PRE-TARE:** Manual saving of a known container weight
